Saturday, June 25th

What? Pure Detroit Design Lab at Jazzin' On Jefferson

When? 11 a.m.-9 p.m.

Where? East Jefferson @ Chalmers (almost to Grosse Pointe, Detroit)

Why? As part of the Jefferson East Business Association's second annual street fair – which will feature local and regional jazz and blues musicians, crafts from regional artisans, ethnic and continental foods from area restaurants, and activities for children – the Pure Detroit Design Lab will set up shop in an abandoned barber shop for one day. Not only will their one-of-a-kind clothing designs be available for purchase, there will also be designing and sewing done on site, haircuts available and DJ's and bands setting the mood. Design Lab creative director Sarah Lurtz says, "The reason I'm so excited about this event is because it's right along the lines of what is going on in high fashion these days. Comme de Garçons has been opening up stores in Europe for only one year – so we're putting our own twist on the idea and doing it for one day."

How much? Free
